## Venus Care

Although it can strike anyone rich or poor, we know that cancer is not life threatening if treated early. But cancer treatments can be costly, and can exhaust your life savings. So having the financial means to seek treatment for the disease significantly reduces your financial burden. Towards this end, early detection is important, which is why we offer reimbursement of up to \$100 every year to encourage women to go for their Annual Female Physical Examination.

Venus Care is specially designed by women for women. It is a plan with relevant benefits to assist you financially in the unfortunate event of being stricken with female cancer. So instead of being overwhelmed by your financial worries, you can focus on putting your health back on track.

### Special Highlights

- Entry age from 16 - 64 years old, with renewal up to age 75 (Attained age premium)
- Waiting Period of 180 days for Female Carcinoma-in-situ and Breast Cancer
- Waiting Period of 90 days for all other specific Female Cancers
